Cavalry Charges and Disorder: Loose-order infantry becomes disordered if steady enemy cavalry contacts them. This happens in Phase 1, before shooting.

Morale Tests: A unit suffering any shooting hits when charging or being charged must test morale, even if it would not normally need to test to charge home or to meet the charge.

Unit size: Use the size of the unit at the time the test is taken (after losses have been removed for that phase) to determine how many rout hits are suffered.

Shooting: Foot in loose order or skirmish roll 1D10 per 3 figures. Round up no remainder. Foot in tight order roll 1D10 per 4 figures. Round up a final remainder of 3 figures. Guns roll 1D10 per gun model, if there at least 2 crew figures manning the gun. Mounted troops cannot fire. Charging troops cannot fire.

Natural Hits: In shooting or combat, a natural 1 is always a miss, a natural 10 is always a hit. This does not apply to morale tests: Modifiers may make it impossible to pass or fail a test.

Leaders: Charisma: 1-3=+0, 4-8=+1, 9-10=+2. CR = 12"
